Remote session for Troubleshooting/Installation/Assistance		-	-
For onsite, max of 2 onsite scheduled visits (based on SLA)		-	-
		-	-
		-	-
		-	-
		-	-

Terms and Conditions:

- LED Monitors are already outside of warranty. Thus any hardware failures including but not limited to dead pixels, no power, etc. are not included in this proposal
- Any server issues resulting to power interruptions and power surges are not covered by this proposal. We highly recommend for SBIA to provide UPS to the FIDS servers.
- SLA description is defined as follows:
 CRITICAL - critical major service failure of FIDS completely interrupts the entire operations
 HIGH - Substantial service failure of FIDS leading to the major interruptions of most parts of the operations
 IMPORTANT - Standard service failure of the FIDS with no impact to the operations
 NORMAL - Request for information with reference to the GTS technical support
